Projects

Joke

A project that combines two API's to create an application allowing users to search for a joke where the keyword also brings up an entertaining gif.

Technologies used: HTML, CSS, JavaScript, JQuery and AJAX

View project: <https://silvia-taliana.github.io/joke/>

View on github: <https://github.com/silvia-taliana/joke>

Weather Dashboard

A project that combines three API's to show the user the current weather, UV index and 5 day forecast of their chosen city.

Technologies used: HTML, CSS, JavaScript, JQuery and AJAX

View project: <https://silvia-taliana.github.io/weather-dashboard/>

View on github: <https://github.com/silvia-taliana/weather-dashboard>

Code Quiz

A timed quiz all about coding where users can store and view their highscores and a time penalty is lost for every incorrect answer.

Technologies used: HTML, CSS, and JavaScript

View project: <https://silvia-taliana.github.io/code-quiz/>

View on github: <https://github.com/silvia-taliana/code-quiz>
